

curriculum.html — Claude Optimized Update Instructions

DOORS2AI CURRICULUM.HTML CONTENT UPDATE — CLAUDE EXECUTION BRIEF

ROLE

Act as senior UX/UI content designer and website copy editor.

OBJECTIVE

Improve clarity, positioning and conversion while keeping structure identical.

NON-NEGOTIABLE GUARDRAILS

- Do NOT change CSS
- Do NOT change layout
- Do NOT change class names
- Do NOT change IDs
- Do NOT change buttons or links
- Do NOT reorder sections
- Only update visible text content
- Preserve responsive behavior

CONTENT INTENT

Position doors2ai as:

- Structured online training platform
- Beginner friendly but serious engineering path
- Real projects and practical outcomes
- Frontend → Full Stack → AI Engineering progression

SECTION UPDATES

HERO

Replace hero paragraph with:

Three structured online programs. One connected learning path. Start with the track that fits your level

PROGRAM DESCRIPTIONS

Update program descriptions to emphasize:

Frontend → fundamentals and portfolio

Full Stack → complete applications

Agentic AI → modern AI systems (Python, LLMs, RAG, LangChain, LangGraph, agents)

REMOVE MCP references if present.

PROGRAM INTRO TEXT

Frontend intro:

Start your development journey with modern frontend fundamentals and a portfolio ready project.

Full Stack intro:

Learn how applications work end to end including backend services, APIs, databases and deployment.

Agentic AI intro:

Learn modern AI engineering including Python, LLM foundations, RAG, LangChain, LangGraph and multi-agent

PROGRAM BULLETS

Frontend:

HTML CSS layouts
JavaScript fundamentals
TypeScript basics
React components
Next.js
Git workflows

Full Stack:

Node.js backend
REST APIs
Authentication basics
SQL databases

Deployment
Capstone project

Agentic AI:
Python for AI
LLM fundamentals
Embeddings
RAG systems
LangChain
LangGraph
Multi-agent design
AI production considerations

FINAL CTA
Replace CTA paragraph with:
Tell us your background and we will help you choose the right learning path.

IMPLEMENTATION METHOD
1 Open only the target file.
2 Locate text sections by visible text.
3 Replace only text nodes.
4 Do not modify markup.
5 Save without formatting changes.

VALIDATION CHECKLIST
- Only text updated
- No CSS modified
- No layout changes
- No class changes
- No ID changes
- Links unchanged
- Mobile layout intact

FINAL EXECUTION INSTRUCTION
Update curriculum.html using this document as the source of truth. Content changes only. No structural c
